

CITY of TRENTON

2800 Third Street
Trenton, Michigan 48183

Dear Resident:

Trenton Public Schools will be performing utility improvements for the Maintenance Building that is going to be constructed at the north end of the Boyd Arthurs Middle School property. This work is tentatively scheduled from **Thursday, July 23, 2020** and will last until or near **September 07, 2020** (Labor Day). This utility work will require crossing Longmeadow Drive near Cora Avenue. Local residents are encouraged to use an alternate route until after the proposed utility and pavement restoration work is completed. **Please be advised that unexpected traffic delays should be expected.**

After the utility crossings are completed, the Longmeadow Drive pavement will need to be restored. The pavement replacement will be done half-width at a time. This will allow access for emergency vehicles and general access to all properties. Work will include removing existing pavement, base restoration (if applicable), and installing new concrete pavement with integral curb and gutter. Please note that all new concrete requires seven (7) full days of cure to gain its full design strength.

Please do not remove barricades/barrels at any time sooner. The Contractor will remove the barricades/barrels blocking a portion of the street/apron once this process has been completed. Each concrete repair area requires approximately ten days (10) to be completed.

Please note that the below referenced outline is weather dependent.

- concrete removal (1 Day)
- base restoration/form installation (1 Day)
- concrete placement (1 Day)
- concrete curing process/restoration/sprinkler repairs (7 Days)

TRAFFIC AND TRASH PICK-UP

The contractor will be working Monday through Friday, 7:00 a.m. until 7:00 p.m. Appropriate traffic control signage will be in place. Trash pick-up and U.S.P.S. main services schedules will not be affected by construction operations. ***If anyone requires special medical attention or is in a wheelchair, please contact the Engineering Department at 675-8251 so the contractor can be informed of these conditions.***

Sincerely,

A handwritten signature in cursive script that reads "Christopher Gibbs".

Christopher Gibbs, M.B.A., P.E.

Staff Engineer
